Star Building Systems for Commercial Centers

Whether you are considering building a one-of-a-kind free standing commercial center or a chain of similar centers spread across the country, Star Building Systems can offer a cost effective solution to fit your needs.

Star Buildings have unparalleled advantages such as faster construction time and low maintenance, as well as design interest and an assortment of exterior veneers that make them an ideal solution for the developer.

Maui Jim, Inc.;
P. J. Hoerr, Inc., builder;
Apae Architects & Engineering, architect.

This flexible system accepts a variety of finishing materials such as precast concrete, timber, glass, stucco and preassembled brick wall that will meet zoning requirements, accent your building's beauty and will enhance the immediate surroundings.

Energy efficient Star Buildings reduce heating and cooling costs and save on future upkeep and maintenance costs.

When it comes to designing your new commercial center, call a Star Builder. They know Star's product and can consult about site selection, specifications, interior design and landscaping. Let them develop a solid plan that includes a Star Building System. Call one today!
